

Kyndall Metz

"I want to say Thank You for helping raise money for the American Heart Association" I was born with my aorta from the heart wrapped around my esophagus and wind pipe. As I have grown the vascular ring has gotten tighter, making it hard for me to eat because I choke. I will be having surgery to correct it and make my heart normal. I am having right subclavian artery (vascular ring) re-implantation surgery on February 22, 2012.

Reminder: Turn
in Money by
Feb. 13th

WLS is raising money for the American Heart Association through Hoops/Jump for Heart. This year our special honoree is Miss Kyndall Metz, a fourth grader in Mrs. Enyart's class. You can read her story above. Students are reminded to hand in their donations by Monday February 13th to Mrs. Hollar or Mrs. Thornburg. Thank you for your support.
